Wisconsin is experiencing an alarming rise in anti-Semitic incidents, according to the Jewish Community Relations Council of the Milwaukee Jewish Federation’s 2018 Audit of Anti-Semitic Incidents. Mirroring the rise of white supremacy, racism, and anti-Semitism in the U.S. and across the globe, new data shows an unprecedented number of local anti-Semitic incidents.

It is the fifth consecutive year of increased incidents, with a 20 percent increase from 2017.
