

Resolution on the Provision of Kashruth Food at JCPA-Sponsored Meetings

Adopted by the 2020 JCPA Delegates Assembly

For over 75 years, the Jewish Council for Public Affairs (formerly the National Jewish Community Relations Advisory Council) has been committed to providing an inclusive environment where every segment of our membership could participate without compromising its core values. In that spirit, all food served at JCPA meetings has historically met the Kashruth requirements of the Orthodox Union, a veteran member agency.

In strongly reaffirming the practice of this organization, we call upon the broad spectrum of the Jewish community to ensure that the food served at meetings meets the religious requirements of every segment of their constituency.
