The Jewish community is not immune. As Jews, it is our responsibility to break the silence...and tell stories that would otherwise not be heard.

Revealing #metoo as #wetoo in Jewish Communal Life: An Evening of Discussion and Action will address, and strives to end, abuses of power that have led to sexual harassment in the Jewish community.

Initiated by the Jewish Women's Foundation of New York with the generous support of the Cornell/Weinstein Family Foundation, this event will be the launch of creating a code of ethics and professional conduct for our community.

This is a free event for lay leaders or professionals in Jewish organizations. Every person attending must register. Space is limited. First come, first reserved.
